Mind and Machines: Reimagining Psychology in the Era of Artificial Intelligence

INTERDISCIPLINARY CONFERENCE

11TH FEBRUARY 2025

CALL FOR PAPERS

The Department of Psychology, Jesus and Mary College, in collaboration with the Indian Institute of Science and Religion, invites submissions for its interdisciplinary conference, "Mind and Machines: Reimagining Psychology in the Era of Artificial Intelligence." This conference aims to explore the profound implications of artificial intelligence (AI) on human cognition, behavior, and society, with a focus on themes such as self-identity, relationships, spirituality, mental health, and related ethical issues. The conference aims to create a platform where leading minds across multiple disciplines can engage in contemporary issues of AI.

Submission Guidelines
Who Can Submit: Scholars, researchers, practitioners, and students from psychology, philosophy, religious studies, education, technology, ethics, and related disciplines.

Submission Categories
Empirical Original Research Papers, Conceptual Papers, Review Papers, Case studies, contributing to the themes of the conference.

Abstract Submission Deadline:
15th January, 2025

Notification of Acceptance:
22nd January, 2025

Presentation Submission Deadline
5th February, 2025

Send your Submissions to :
mindandmachinesconference.jmc@gmail.com

Mind and Machines: Reimagining Psychology in the Era of Artificial Intelligence

11TH FEBRUARY 2025

CALL FOR PAPERS

SUB-THEMES

AI and Mental Health
- AI-driven psychological diagnostics, and therapeutic interventions.
- Psychological impacts of AI in the era of digital dependency.

Self, Identity, and Consciousness in the AI Era
- AI, self-concept and identity formation.
- Philosophical explorations of AI consciousness and its implications for human nature.
- Dual existences: navigating reality and digital realms.

Relationships and Social Interactions
- Trust, empathy, and intimacy in AI-mediated communication.
- Impact of AI on interpersonal relationships and social interactions.
- Ethical challenges in human interactions with humanoids and AI companions.

Spirituality and Religion in an AI-Driven World
- Integration of AI in spiritual and mindfulness practices.
- Ethical considerations in AI's influence on spirituality.

Advanced Research and Ethics in Psychology
- Innovative uses of AI in psychological research and practice.
- Addressing ethical dilemmas: privacy, bias, and accountability in AI applications.
- Potential of AI-driven research in addressing cultural diversity.

Abstract Requirement:
Word Limit: 250-300 words
Format: Times New Roman, 12 pt, single-spaced
Include: Title, author(s) name(s), affiliation(s), contact details, five keywords.
