18. SWOC Analysis

Strength: We have eight permanent core faculty members this year which ensures better and smooth running of the department activities. An array of resources related to our subjects are available in the library and online. Strong bond between students and teachers. Diversity and inclusion is the biggest strength of the Department. The inevitable intercultural dialogue helps develop their personality in multifaceted ways. The faculty members use innovative methods in classroom and we also give lots of import to the experiential learning. Weakness: Limited contact with companies and people working in the real business world like web designers, animators etc. French and Spanish is offered as minor subjects. Lack of language lab. Opportunities: The students find a variety of career options after graduation. Students learning French and Spanish can apply for exchange programs and can avail scholarships. Challenges: We are striving towards working up on placements.

19. Future Plans

Future plans: We are striving to strengthen our alumni. We look up towards organising more intradepartmental and interdepartmental events. We also plan to organise more academic events and invite more resource persons to share their knowledge with our students.
