My experience and learnings

I Mrinal Pandey worked as an intern for 1 month in Yashoda hospital in CSSD of the hospital. I was assigned initially to observe the process and procedures performed but later was assigned to check the quality indicators of sterilized equipments.

In most healthcare facilities, the Central Sterile Supply Department (CSSD) plays a key role in providing the items required to deliver quality patient care. A well planned, well managed and well staffed CSSD can ensure an infection free environment of hospital and save valuable life and money.
