

### Qs 3 Caters to student diversity

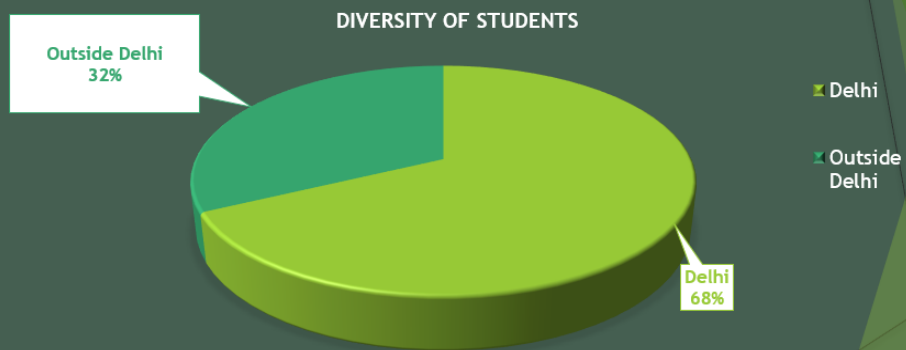

The students admitted to the Department of Commerce come from diverse cultural backgrounds, as depicted in the map and pie chart.

## Diversity of Students

We have students from all over India:

## Diversity of Students (2017 - 2018)

- This Diversity in the classroom leads to students' increased cultural understanding, **stronger critical thinking skills and enhanced creativity**, which all better prepare them for adulthood
- The presence of diversity in the classroom allows students to consider perspectives and opinions beyond those they've already formed early life by family and friends
- The teachers of the department try to create a **culturally responsive learning environment** and an environment of inclusion in the classroom
- Some teachers also organise **picnics and potluck** where each student or group contributes a different, often homemade dish of food to be shared by others. This enables them to learn and respect the varying cultures
